Fitting instructions for Lift-off lid conversion KPantop-3

This kit is designed to convert hinged pannier lids to removable lids.

Contents:-

Part Number	QTY Needed	Description
P111	1	Mouth latch, lift off lid
P109	1	Tongue for lift off lid
FA1016	1	Torx M3 bit. For use with Torx head screws
FA1015Q	2	Screw, dome head, Torx, M3 x 10, with nut, stainless
FA1377Q	2	Screw, dome head, Torx, M3 x 20, with nut, stainless

The mounting holes in P111 and P109 are designed to line up with the existing hinge holes so you don't need to drill any holes in the new panniers.

Fitting instructions: -

Firstly unlock the luggage lid

Remove the hinge using the Torx bit included

Attach the P111 bracket (larger of the two) to the inside of the luggage box, with the bend facing into the box so as to go around the lip.

Attach the P109 bracket (the smaller of the two) onto the inside of the lid

Replace the lid and away you go!
