Bike – Norton Featherbed frame, Atlas SS, Dominator

The correct rack for these bikes is an 'W' rack

The fitting kit is designed to mount the rack to the motorcycle and there is a second kit to hold panniers should you require it.

Included in the fitting kits:-

Main fitting kit

Part Number	Quantity	Description
P460	2	Straight leg 7-15/16 centres
P477	2	Straight leg 5-13/16 centres
FA1476Q	6	Set bolt, M8 x 20, stainless steel
FA1530Q	6	Nyloc nut, M8, stainless
S19-3Q	12	Plain washer, 5/16, stainless
P173	2	5/8 round tube clip

Pannier fitting kit

Part Number	Quantity	Description
P223	1	Support arm Norton Atlas, left
P223A	1	Support arm Norton Atlas, right

Fitting the rack:-

Main kit

This kit is quite simple to fit. See Fig 3 for the photograph. The straight legs bolt to the skis on the rear rack and then mount onto the rear grab rail/rear mudguard mountings.

Pannier fitting kit

The long support arms mount to the same mount as the rear rack support arm and so strengthen that support.

Fitting the panniers:- See 'General Fittings' sheet to mount luggage
